-----

High solar activity in Turkmenistan makes small-scale solar energy a cost-effective way to provide electricity to hard-to-reach areas. In the vast areas of the central Garagum ...

In this video, we take you through the process of turning a SolaraBox container into a fully operational solar power plant. From initial setup to integrated testing, we show you how our...

AIMS Power inverters are available up to 8000 watts throughout Turkmenistan in 12, 24 & 48 volt models for off-grid, mobile & emergency backup power applications.

As the country modernizes its electrical grid and invests in solar energy projects, specialized factories now produce equipment ranging from portable generators to industrial-grade power ...

From dust storms to grid instability, Turkmenistan's emergency outdoor power supply needs demand localized expertise. By combining cutting-edge technology with deep regional ...

This flexible solar panel can conform to various surfaces, making it ideal for irregular installations on caravans, boats, and trailers, providing versatile energy solutions in off-grid situations.

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Unlike commercial solar generators, residential solar generators are often more compact and portable and intended to power households. They are perfect for those who live in remote ...

Built with IP65 waterproof technology, this portable solar panel withstands outdoor conditions, making it
