Located in Kapeeka, in the central Ugandan district of Nakaseke, the project will be developed by Energy America's regional ...

Uganda has authorized Energy America and EA Astrovolt to develop a large-scale solar and storage facility as part of its 1 GW ...

By partnering with Energy America and EA Astrovolt, Uganda will harness world-class clean energy technology, foster local employment and skills development, and accelerate our ...

The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power ...

The project, led by EA Astrovolt, the East African arm of U.S.-based Energy America, is part of a wider national goal to integrate more than one gigawatt of solar-plus ...

Uganda has authorized Energy America and EA Astrovolt to develop a large-scale solar and storage facility as part of its 1 GW renewable rollout.

Located in Kapeeka, in the central Ugandan district of Nakaseke, the project will be developed by Energy America's regional development subsidiary, EA Astrovolt. It will be ...

The 100 MWp solar photovoltaic (PV) power plant integrated with a 250 MWh battery energy storage system (BESS) project will be delivered by U.S.-based Energy ...

This marks AMEA Power's first venture in an East African Community (EAC) country and paves the way
