Launched in September in the communities of Wintua and Lorlow, the micro-grid is Vanuatu's first-ever community-run power system: members of the communities own and manage it.

Strategically located on Efate Island, the solar farm features 22,000 solar panels and an advanced 3.3-megawatt battery storage system, ensuring a stable and reliable power ...

Get reliable, affordable solar, battery, and generator systems in Vanuatu. Power your home, business, or community with custom off-grid energy solutions.

This system is designed for residential use, combining energy storage batteries, solar panels, and smart control technology. It ensures maximum energy efficiency by optimizing solar power ...

Cetelnet is delivering tailored renewable energy Vanuatu solutions from solar systems to off-grid mini-grids for remote communities.

On the remote island of Malekula, the second-largest island in Vanuatu, a new solar micro-grid is changing the lives of over 2,800 people - boosting local development while contributing to ...

Strategically located on Efate Island, the solar farm features 22,000 solar panels and an advanced 3.3-megawatt battery storage ...

This ambitious project will be situated on the Kawene plateau in Efate, adjacent to the existing wind farm and solar facility, making it the ...

Jalu Apen from Vanuatu installed a POW-HVM3.5K-24V system in the South Pacific. The setup features four 450W solar panels and two 12.8V 100AH batteries, delivering ...

This ambitious project will be situated on the Kawene plateau in Efate, adjacent to the existing wind farm and solar facility, making it the largest solar farm in the country. The ...

Our portable solar generators bring reliable electricity to even the most remote islands. Enjoy the convenience and independence of sustainable energy, no matter where you are in Vanuatu.

Get reliable, affordable solar, battery, and generator systems in Vanuatu. Power your home, business, or community with custom off-grid energy ...

With a robust solar power generation and storage system, they can be placed nearly anywhere there is access to sunlight and can provide enough power to remain self-sufficient ...
