Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Designed for solar power plants, this innovative solution combines ...

In 2022, FranklinWH debuted their first storage product: the aPower. Unlike many other storage options on the market, the aPower must be installed with FranklinWH's load ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The FranklinWH System stands out with universal compatibility across its battery lineup, including aPower 2, aPower S, and even earlier-generation aPowers, allowing mixed battery ...

With a massive 15 kWh usable capacity and 10 kW continuous output, this advanced LFP battery can power your entire home day and night or during outages, including air conditioners, ...

Manufacturers design battery storage containers--often repurposed or custom-built from shipping containers--to house large-scale battery systems. These batteries store excess ...

Today's gold standard for solar containers. Why it's a favorite: This battery is a workhorse. It's very stable, tolerant of high temperatures, and doesn't lose its capacity quickly ...
