What is a custom double pane window replacement?

Unlike single-pane glass, custom double pane window replacement with Low-E coatings or argon gas or insulating gas-filled panels offer superior performance. Perfect for patios or entryways to block drafts and noise. These DIY-friendly options for the replacement insulated glass panels are easy to install and effective for thermal insulation.

Is double pane glass insulated?

Yes, double pane glass is insulated glass with two layers of glass and a gas-filled space in between to save energy and keep your home comfortable. The R-value of insulated glass tells how good it is at keeping your home insulated. A higher R-value means better comfort and energy savings.

Where can I find a double glazed glass panel?

Find your double-glazed glass panel easily amongst the 105 products from the leading brands (Forzon, SCHOTT, AGC, ...) on ArchiExpo, the architecture and design specialist for your professional purchases.

What type of gas is used between glass panes?

The gas used between the glass panes in Downey Glass's insulated glass varies with each manufacturer. In general, an inert gas such as argon, krypton, or a mixture of both creates the insulating barrier between the indoors and outdoors.
