Hillcrest's next generation EV inverter features the new ZVS-enabled power modules, delivering a substantial boost in power level and ...

The ZVS inverter coupled to Hercules high power density motors and batteries represents a significant increase in overall system efficiency, which results in more power and ...

The Hillcrest ZVS power module enables power applications to operate at higher power levels AND higher switching frequencies without ...

The ZVS inverter coupled to Hercules high power density motors and batteries represents a significant increase in overall system ...

Hillcrest's ZVS traction inverter achieves groundbreaking 3mm²/kW die area, surpassing 2035 projections. Innovation cuts costs and boosts performance for EV ...

"Our ZVS inverter technology is designed to unlock new levels of efficiency, performance, and grid stability," says CEO Don Currie, emphasizing its cross-sector potential. ...

To facilitate Zero-Voltage Switching (ZVS) and enhance adaptability to a wide load range, dynamic frequency modulation has been implemented. A prototype with 60 V input and 60 W ...

By achieving lower die area per kilowatt, Hillcrest's ZVS traction inverter is optimizing the physical semiconductor area required for power handling.

Hillcrest's next generation EV inverter features the new ZVS-enabled power modules, delivering a substantial boost in power level and power density while being designed ...

"Our ZVS inverter technology is designed to unlock new levels of efficiency, performance, and grid stability," says CEO Don Currie, ...

Our proprietary Zero Voltage Switching (ZVS) inverter technology unlocks new levels of efficiency, performance, and integration -- all while reducing complexity and cost. Inverters are the ...

Abstract: A single-phase zero-voltage switching (ZVS) quasi-Z-source inverter with a high voltage gain is proposed, and important conclusions are obtained through the in-depth analysis of the ...

Hillcrest's ZVS technology platform is an adaptable architecture decoupled from an inverter's power control system, allowing for speed and agility when deployed into new applications and ...

The Hillcrest ZVS power module enables power applications to operate at higher power levels AND higher switching frequencies without compromising efficiency.
